

# HACCP

Do you work in the food industry? If so, hygiene is always the top priority. You and your organisation are expected to follow the rules for proper hygiene based on the HACCP standard. HACCP is a certification method to ensure safety and hygiene. All companies that produce, process, transport and/or store food products are required to have a HACCP system in place. One of the requirements is that employees in those companies must be HACCP certified. Opt for convenience and speed with our HACCP training programme.

## The training programme

The e-learning programme, including audio and the exam, is available in Dutch and English, and it works on both PCs and tablets. Candidates who pass the exam will receive a certificate. With this certificate you can show that the work is carried out in accordance with the HACCP guidelines. The government closely monitors whether you are HACCP certified.

## Who should participate in this programme?

Everyone who is involved in the production, processing or distribution of food products, such as the food industry, hotel, restaurant and catering companies, logistics and the health care industry. HACCP is a requirement for these sectors.

Explanation

Great exercises

Questions

The e-learning programme is comprised of online modules:

- The importance of hygiene and the HACCP method
- Personal hygiene
- Cleaning, waste and pests
- Temperature management
- Setting up company spaces
- Purchasing, storage and shelf life
- Preparing, presenting and serving
- Practise tests
- Online HACCP exam

## How does it work

- Go to the website HACCPdirect.nl to register candidates (organisations that have a PlusPort Academy can book the training via their own academy)
- The candidate will receive login information for the training programme right away
- The candidate follows the online modules and sits the online exam
- The candidate earns a certificate upon passing the minimum exam requirements

PlusPort B.V. launched the HACCPdirect brand name in 2006.

PlusPort B.V. develops and distributes online training courses and Academy software via the internet for its national and international customers and training programme participants. PlusPort is a market leader in safety training programmes in the broadest sense of the word.

## Costs per candidate

HACCP NL or EN
